

# GRAYAGAIN TECHNICAL DATA SHEET

## PRODUCT SUMMARY

GrayAgain is designed to significantly reduce the quantity of hazardous wash water produced and time spent cleaning a concrete mixing drum following a load of integrally colored concrete. GrayAgain enables producers to deliver more concrete per day by maximizing truck utilization and reducing labor costs. Additionally it reduces hazardous rinse water disposal following integrally colored concrete by as much as 95%.

## AUDIENCE

- Ready-Mix Producers
- Concrete Block Manufacturers
- Precast Product Manufacturers

## FEATURES / BENEFITS

- Reduced Water Usage
- Reduced Truck Downtime
- Reduced Driver Downtime
- Reduced Hazardous Waste Disposal
- Increased Fleet Utilization

## TECHNICAL INFORMATION

GrayAgain contains only finely milled synthetic iron oxides, natural pigment, and dispersing agents. These products meet or exceed ASTM C-979. This product is designed to be discharged from the drum prior to batching the next load, however is safe enough to be mixed with concrete, as it will have no deleterious effects on set time, finishability, or air entrainment properties.

## PACKAGING

GrayAgain is packaged in 5 different treatment selections that come in both 6 and 24 pound sizes. The material is packaged in water soluble bags that are placed in a labeled paper liner that includes the loading instructions.

## TREATMENT SELECTION

---

The individual color and color loading being used determines the proper GrayAgain treatment to utilize. A pocket treatment guide will be shipped with initial orders, and the entire GrayAgain Treatment Guide is posted at the company website [www.grayagain.com](http://www.grayagain.com).

## COVERAGE

---

GrayAgain is designed to treat the remaining residue in a mixer drum following the usage of integral color. Based on the results of producers nationwide, it was determined that the average truck returns with approximately 500 pounds of residual concrete. Consult GrayAgain LLC if you require the ability to treat quantities beyond the documented recommendations. The ability exists to treat larger quantities but exact weights and mix designs will determine the quantity of GrayAgain to use.

## USAGE DIRECTIONS

---

- 1** Unload all leftover concrete from the mixer prior to the use of GrayAgain.
- 2** Add 10 gallons of water and thoroughly rinse mixer fins and the top of the drum.
- 3** Place GrayAgain into the mixer, rinsing down any color residue at the top of the drum and mix for five minutes.
- 4** Discharge resulting Gray residue as per your normal company procedures.
- 5** After batching next concrete load, reverse the drum prior to making the delivery.

## WARRANTY

---

Seller warrants that these products will conform to and perform in accordance with the products specifications. This foregoing warranty is in lieu of all other warranties, expressed or implied, including, but not limited to, those concerning merchantability and fitness for a particular purpose. Because of the difficulty in ascertaining and measuring damages hereunder, it is agreed that, except for claims for bodily injury. Seller's liability to Buyer or any third party, arising out of the purchase of the Product from Seller by Buyer shall not exceed the total amount billable to the Buyer for the Product hereunder.
